PROJECTS

CHICK-FIL-A, HEALTHMATIC BUSINESS SOLUTIONS

Web application for food ordering, with user authentication and authorization, in which customers can order from vendors online and provide ratings, and users can view available products, add them to their carts, and make an order of those products as well as go through the offers that the restaurant had, and user can also edit their profile and log off.

E-COMMERCE APP, PERSONAL.

An e-commerce website is one that allows people to buy and sell physical goods, services, and digital products over the internet rather than at a brick-and-mortar location.

THANKS

I hereby declare that the above information is true to best of my knowledge.
